Studying Hairdressing

I came to the Australasian College Broadway from another college that focused all their teaching on theory without any opportunity to practise. I am studying Hairdressing for my PR and I am really passionate about becoming

a Hairdresser and working in the Industry when I finish my studies. Since I came here I have gained so much confidence, learned so much more, work on clients hair every day I am here and I love to see the result after I have finished a clients hair. The teachers here are so wonderful, they are very experienced, talented, friendly and always ready to help. The College is very modern and glamorous with the latest resources for us to use. I really love every day I am here.

Studying Hairdressing

I found my way to the Australasian College through an agent and I have been studying for six months now. I really love it here, the teachers are excellent, friendly and really care about the students. I really enjoy the

international flavour of the college and the cultural diversity. Sometimes people think that Australia is a place where you will see kangaroos hopping around and not much else. But this is not true. Australia has a very rich culture. It is a place where international students can learn a lot: learn to live, learn to grow and learn to be independent. I am studying for my PR in a career which I am very passionate about and I am looking forward to working in the industry when I have my qualification.

Studying Hairdressing

I wanted to come to Australia to study Hairdressing, so I started searching for colleges on the internet. One of the colleges I found was the Australasian College Broadway, so I decided to call from home and ask some more

questions to get the answers I needed. I managed to speak to a most wonderful staff member called Petra, who is in charge of the beauty therapy faculty. She was absolutely fantastic, friendly, caring and truly wonderful. I called her every day and her assistance never faltered. There was no other decision for me to make, I enrolled, paid for my course in advance, packed my bags and here I am. It is everything I believed it to be, a beautiful artistic space, modern facilities and resources, talented teachers with great skills to give you the best opportunity for a future career as a Hair and Beauty professional.

Studying Hairdressing

I wanted to come to Australia because it is such a beautiful country. Once I was here I wanted to stay longer, however on a visitors visa that was not possible so I decided to become a student and study so that I could stay longer. I have always

loved the Hair and Beauty industry and its link to fashion and glamour so I decided to study Hairdressing.

After research I found the Australasian College Broadway to be the best college, with the most beautiful premises, the most experienced teachers, the most friendly personalities and the most centrally located in the heart of Sydney. I do my 20 hours study over three days and on the other days I do my 20 hours working some of the time in a Salon and the rest as a waitress. I would recommend anyone coming to study Hairdressing in Australia to do their course at the Australasian College Broadway, it is simply the best!

Deepa Oli
Studying Hairdressing

When Deepa first came to Australia she decided to study nursing, however, it only took a while for her to discover that this was not really her, she needed to do something more creative. She talked to a friend who told her that

Hairdressing was a very interesting, creative and exciting subject to study with really positive job prospects once you have your qualification. She then researched Colleges and decided that Australasian College Broadway offered the very best courses for her in an environment that was fashionable and glamorous. She absolutely loves every day, she says "the teachers are cooperative, talented, very funny and a source of our encouragement. Practising your skills on real clients is a great rewarding experience."

Studying Hairdressing

I studied at Wollongong University where I gained a Major in Strategic Marketing. Then I decided I wanted to do something more active and fashionable so I decided to do Hairdressing. I chose three colleges to research and after

visiting them all there was no doubt that Australasian College Broadway was the only choice to make. The environment is beautiful, all the teachers are local, many of the students have become teachers. I can do my 20 hours in 2 days which suits me very well. I sometimes help as an interpreter at the college for students who are having difficulty with their English and I really love to help when I can. I do my 20 hours work in a Hairdressing Salon in Wollongong where I live and my boss is very happy with my work.

Studying Hairdressing

The main difference between studying here and in my home country of Vietnam is the approach to study. The Australian education system offers me a flexibility I value. I learned about the Australasian College Broadway through a friend who

was a long time client here. She told me it was the best, had a very high standard and she was always very happy with every hair and beauty service she received at the college. So I enrolled and started my course which I really love. The teachers and staff are very professional, friendly and helpful and I have made many friends here, we are just like one big happy family. We are always laughing and having fun while we learn, we do have the opportunity to cut and colour each others hair which makes us feel very fashionable and glamorous. I am hoping to specialise in colour and become a colourist expert!

Studying Hairdressing

I came to the Australasian College Broadway from another college which closed down suddenly making me feel very unhappy. After coming here I am happy again and realise how much better the teaching is and how much more I am

learning. The learning style at the other college was only theory and we never had an opportunity to be hands on and use our skills on real clients. The teaching methods used are very different, creative, exciting and in many ways unique. I would highly recommend Australasian College Broadway to anyone coming to Australia from my country to study hairdressing.
