哈爾濱工業大學

Harbin Institute of Technology

• Introduction to HIT

Founded in 1920, Harbin Institute of Technology (HIT), with science, engineering and research as its core, encompassing management and liberal arts, has developed into an open, scientific research and multi-disciplinary nationally famous university. Today, HIT is one of the top nine key universities in China. HIT faculty has enormous potential numbering over 3,000, including 20 academicians of the Chinese Academy of Sciences and/or the Chinese Academy of Engineering and more than 500 doctoral supervisors. The full-time registered students at HIT numbers over 55,500 and each year we welcome more than 1300 international students to study at HIT. It now has Shenzhen Graduate School and Weihai Branch, totally 68 undergraduate programs, 143 master's programs, 81 doctoral programs, 18 post-doctoral mobile stations, 1 post-doctoral working station, 18 national key disciplines, 22 national and provincial (ministerial) key laboratories. HIT boasts of a group of well-experienced faculty and strong scientific research strength. As one of the key universities in China, which enjoys the Chinese Government Scholarship for International students, HIT also offers "HIT Scholarship" for those outstanding young foreign students. HIT is located in Harbin, which is famous for ice lantern and snow sculpture.
